Full Throttle has been 25 years in the making. Preacher Morgan has desired to get a bike and use it to spread the gospel. In the past, Preacher Morgan has attended various bike weeks, but has never had a bike to participate fully.

Thanks to God's wonderful timing, Preacher Morgan now has a bike and the perfect location for this ministry. Outreach Across America Worship Center is located in Madisonville, Tennessee. This is an area which attracts many bikers from all over the country due to its location near the Cherohala Skyway and the famous Dragon on US 129 with its 318 curves in only 11 miles.

As a church, our goal is to reach the bikers passing through this area and show them the love of Jesus. Our plans include organizing events for bikers which include poker runs, fun runs, cookouts, and concerts with the goal of building relationships. It is hoped that these relationships will develop into opportunities to share the gospel

For the latest news and current events see the main [Full Throttle Warriors](#) web site.
